# Skill Up Seminar for Researchers

## Scientific Writing

Scientific writing is crucial for researchers, ranging from undergraduate students to early career researchers, because it is the main channel through which researchers communicate each other. In order to help TUT researchers, Dr. Sangjin Ryu, a visiting scholar at Department of Mechanical Engineering, offers "Skill Up Seminar - Scientific Writing -". In this seminar, Dr. Ryu will give a short talk about scientific writing focusing on journal paper writing, and then offer weekly office hour sessions to help TUT researchers based on his experiences on scientific writing.
